

## WHERE DO I THROW OUT BULKY WASTE?

For your heavy and cumbersome waste, such as appliances, you can request **free collection**.

You can book the service online, in just a few clicks. Visit [amsa.it](http://amsa.it)

Or you can call the toll-free number 800.332299

Comply with the methods and acceptability limits indicated on the [site amsa.it](http://site.amsa.it).

Remember that you can also deliver your bulky waste free of charge to the Ecological Platform.

### ECOLOGICAL PLATFORM Via per Monticello

The ecological platform is a guarded equipped area where you can bring all recyclable materials, even cumbersome waste (such as sheet glass or cardboard packaging), bulky waste, used oils, inert materials (such as rubble, bathroom fixtures, building debris), waste electrical and electronic equipment (WEEE) and a series of hazardous urban waste (related only to domestic users).

Before bringing your electronic waste (WEEE, such as PCs, tablets, mobile phones, etc.) to the Ecological Platform, delete all the data contained in them and remove the batteries.

Admission is limited only to residents in good standing with the payment of the waste tax. Access is allowed with Health Card - National Services Card.

#### Winter hours

(from the last Sunday in October to the last Saturday in March)

From Monday to Friday 9 am - 12:30 pm; 2:30 pm - 5:00 pm  
Saturday 8:30 am - 12:30 pm; 1:30 pm - 5:00 pm

#### Summer hours

(from the last Sunday in March to the last Saturday in October)

From Monday to Friday 9 am - 12:30 pm; 2:30 pm - 5:00 pm  
Saturday 9 am - 12:30 pm; 2:00 pm - 6:00 pm

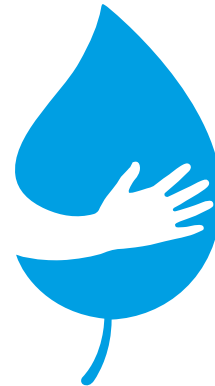

### Use the CAM - Mobile Environmental Centre -

the itinerant recycling station, where you can deposit all your small waste electrical and electronic equipment, vegetable and mineral oils in plastic bottles, batteries, spray cans, ink cartridges and toners, low-consumption light bulbs. Check the calendar on the APP and on the site [amsa.it](http://amsa.it)

### BUT BE CAREFUL!

Even a small waste item in the wrong container can set back the recovery process. For instance, we use the organic/wet waste to produce compost and biogas, but if it is contaminated by plastic and metal, it becomes unusable.

Do not leave waste on the street and remember that you cannot use the road bins for household waste because you could be fined.

When we all give our contribution  
and do separate waste collection
